* First disbursement date funds can be disbursed (credit to student account) for classes taken in this POT.

** Classes in this POT, dropped or withdrawn before this date and no longer enrolled in any other POT, funds will be adjusted.

*** All students offered aid on or before the weekly disbursement dates will have eligible funds authorized by financial aid to be then disbursed to their student account based on the number of current hours they are attending as of the weekly disbursement date. After Thursday 2/19/2026, spring disbursements are scheduled to run weekly on Thursdays through May 14, 2026. Funds, except loans, will not be authorized until at least 10 days after the class start date. Loans will authorize on the Thursday following the first day of the class, starting 2/26/2026. Student financial aid offered amounts, specifically Pell Grant, will adjust up and down based on the number of currently attending hours, completed, withdrawn, and or dropped on the disbursement dates. Financial aid offered amounts will be based on enrollment in each POT (see Parts of Term list in **BOLD** in the parenthesis)

Financial aid **will pay** for registered hours and classes attended through the course 20% date and classes withdrawn with grades of W, F or U.

Withdrawals may cause adjustment to aid amounts. Financial aid **will not pay**, regardless of the amount a student is charged, for classes audited, classes not in your program of study, and classes dropped before the course 20% date. Course 20% dates can be found on MyMC. Financial Aid also **cannot pay** for most classes previously passed and being repeated for the third time.
